

New CERA Seminar Dates!

Spring/Autumn
2016

Based on the 2011-implemented education and examination system of the German Actuarial Association (DAV), the EAA offers a series of training courses and exams (through DAV) to study for the CERA designation, e.g.:
CERA, Module: ERM - Concept and Framework, 29 February-1 March 2016, Zagreb
CERA, Module: Quantitative Methods of ERM, 2-4 March 2016, Zagreb
Please find more information and further seminar dates online at www.actuarial-academy.com!

Sustainable Life Products in a Low Interest World

15/16 October
2015

Prague
Czech Republic

The seminar is suited for actuaries or actuarial trainees as well as for those who are directly or indirectly involved in issues with regard to developing or controlling products in life insurance. The aim is to present current aspects and innovations in the life insurance markets. Special attention will be given to the financing of guarantees in the saving process that are under pressure against the background of low interest rates.

Workshop on Credibility Theory with a Strong Focus on Applications in Practice

19/20 October
2015

Budapest
Hungary

Credibility is nowadays not only an indispensable actuarial technique for non-life and life, direct and re-insurance, but it is also applied more and more in the broader field of finance. It has a huge range of applications such as premium-calculation, experience rating, designing Bonus-Malus schemes, estimation of mortality- and disability-curves, claims-reserving, credit risk and operational risk. From a mathematical point of view, credibility-theory belongs to the field of Bayesian statistics and credibility estimators are best linear Bayes estimators.

1st EAA Risk Management Summit

29 October
2015

Frankfurt
Germany

The recent past has been dominated by more defensive topics such as risk management and new solvency regimes. Partially and sometimes the core service of an insurance company, the product, wasn't in the focus of the discussions as it should have been. Actually, it is the product and all its related features and processes that bears and generates the risks and in the end it is the product that generates new business and profits. Therefore, knowledge on products and their impact on different levels and dimensions is essential.

Webinar: Market Consistent Valuation for Pensions

6 November
2015

online

EIOPA, the European Insurance and Pension Supervisor, is progressing their "Further Work on Solvency for IORPs". Market Consistent Valuation for Pensions is what EIOPA is aiming for. This webinar will focus on the valuation of pensions. EIOPA's proposals will be discussed as well as the response from politicians, pension fund representatives and actuaries. The discussion paper "Clarity before Solvency", issued by the Actuarial Association of Europe, will be covered extensively in the webinar as it is the actuarial food for thought in this important discussion.
