

To join our recently set up and rapidly growing actuarial team, we are looking to hire a talented and driven

Senior Actuarial Model developer

About the role

Aegon has a fast growing actuarial team in Budapest, with new teams and roles added continually. This role is a fantastic opportunity for an ambitious and experienced modelling actuary to make a difference by setting up and driving a new modelling team with group-wide impact.

In this role you will work with senior actuaries and stakeholders in our group to understand their actuarial modelling needs and design and propose appropriate modelling solutions. Your role includes developing and testing actuarial models meeting those needs, coordinating the work of you and more junior developers in the team. You will be responsible for the design and development of the models, maintaining high standards of coding and modelling within the team, and making sure that the delivered models meet the highest professional standards and expectations.

What we are looking for

- Demonstrated track record in life and health actuarial model development
- Self-starting, pro-active, energized and 'can-do' attitude is a must
- Ability to effectively communicate with senior actuaries in varied topics
- Capability to coordinate the work of other developers
- High degree of actuarial professionalism
- Fluency in at least one high level programming language, understanding of common coding standards
- Outstanding communication skills
- Proficiency in English is a must
- Experience in actuarial software development (i.e. AXIS, RAFM, MoSes, Prophet) is a strong plus
- Mentoring or people management experience is a plus
- Passion to learn and grow professionally and make an impact

What you can find with us

- This is a unique opportunity to set up, shape and establish a new model developer team
- Potential to grow into managerial role in a fast evolving, new organization
- Challenging and varied actuarial modelling work
- High visibility and a significant impact across the entire group
- Highly competitive annual pay
- Pension and medical plan
- Personal training budget to continue your professional development
- Remote work option with minimum 1 day per month on site
- Flexible working hours
- Centrally located modern office in Corvin district

Who we are

Aegon is an international financial service holding company headquartered in The Hague, the Netherlands. Our ambition is to build leading businesses that offer their customers investment, protection, and retirement solutions. Our purpose is to help people live their best lives, which goal runs through all of our activities. The company has multiple locations across the globe, with core markets in the UK and the US, partnerships in Spain & Portugal, Brazil, and China and an Asset Management organization with locations in UK, US, NL and Hungary. In the Netherlands, Aegon generates value via a strategic shareholding in a market leading insurance and pensions company.

Aegon Global Business Solutions Center is supporting these businesses with IT, Finance, Risk, Model Validation, Actuarial, Audit and Asset management services with a growing team of approx. 300 people, based in Budapest, Hungary.
